

# Hiranyikara

Thailand is well-known worldwide for its abundance in natural resources like rice, fruits and especially Thai herbs that have not only been used in the famous Thai cuisine, but have also become famous and well accepted in the Spa industry both in and out of Thailand for their therapeutic qualities in body and mind treatments.

Thai fruits are an alternative in the Spa business of using nature for therapy and beauty enhancement. Many famous Thai fruits such as papayas, pineapples, mangos or bananas, have been researched and developed to produce various beauty products of high quality.

On the occasion of Hiranyikara Spa's 2nd anniversary, we are proud to offer you all of those top-quality products that come in our new Fruit Package as a special gift. We very much hope that you will get all the good things and enjoy every moment with our top service.
